DETAILED ACTION

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 24 is rejected under 35 U.S.C. 102(b) as being anticipated by Osaki(5,657,449).

With regards to claim 24 Osaki teaches a method of processing ingress data units in a link layer processor of a multiprocessor control block(line setting processors) in a communications switch(Fig. 1@103), comprising: receiving a first ingress data unit corresponding to a call(receiving data unit at the line interface), selecting a first selected intermediate processor(Fig. 1@108-1, selection is made by the path management processor) of a plurality of intermediate processors(Fig. 1@108-n) included in the multiprocessor control block(the line setting

processors in totality constitute a block), forwarding the first ingress data unit to the first selected intermediate processor(col. 6 lines 34-38)

Allowable Subject Matter

Claims 1-23 are allowed.

Claims 25-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
